Diversity Virtual Studios is split into various age and ability groups to ensure developmentally appropriate class work in a variety of exciting styles! We've Got You!

Although we understand this is not ideal, we are thankful to have the technology to continue to provide the high quality dance education you've come to know and expect from Diversity Dance.

We are committed to providing a valuable learning experience and new exciting programs to our Virtual Studios. Your Diversity Dance teachers have been hard at work developing an at-home syllabus to be sure our dancers continue to grow, learn and improve from home.

Now, more than ever, the connection between our students and families is of utmost importance. We are dedicated to providing a support system to continue to develop strong bodies and minds in all of our students until we can be back in-studio again!

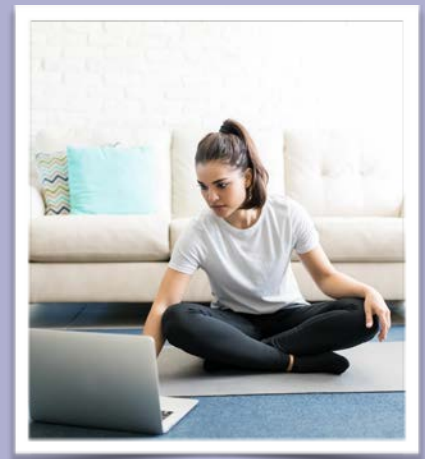

Diversity Virtual Studios will put our student's physical, mental and emotional health at the forefront during this challenging time.
